PORTS DISMANTIED.

The dismantling of Forts Carroll, Stanton, Baker, Mahan, Lincoin, Totten, Slooum, Stevens, Rano and Summer, north of the Fotomac, reduces the defenses of Washington to a peace footing, and leaves of them only the powerful water battery on the Maryland shore above Fort Foote, which is armed with the heariest and nost improved arrillers, and commands the Potomac River for miles below and above. The formidable battery on the Virginia shore, near Alexandria, known as Battery Rodgers, which is mounted with heavy guns of long range, is also essential to guard the river approach to the metropolis; and Fort Whipple, in Virginia, about midway between Alexandria and this city, used as a military prison, and to which the Oid Capitol prisoners were removed.

DECISION ON A BOUNTY CLAIM.

On a claim for \$100 bounty, preferred by a soldier, who enlisted July 18, 1861, under the provisions of General Orders Nos. 15 and 25 of 1861, which do not limit the term of cullstment to two years service in order to entitle volunteers to the \$100 bounty allowed at that time, and who was discharged for disability before the expiration of two years, the Paymaster-General has decided that the soldier is not entitled to the bounty in question, for these reasons, viz. The act of July 22, 1851, applies to all three years' men who enlisted from the commoncement of the Rebellion up to the call of July 18, 1864; but General Order No. 38, of the year 1864, from the War Department, is explanatory of General Orders Nos. 15 and 25, of the year 1861, and this plainly states that a continued service of two years is required to entitle volunteers to receive the \$100 bounty.

The Hon. William A. Graham, United States senator elect from North Carolina, publishes a state ment, from which it appears that, in January, he addressed a letter to Senator Fessenden, suggesting that it would be but justice to permit the Delegation elected from each State to be present at the reception of all evidence touching the State or any of its members before the Committee on Reconstruction, with the privilege of cross-examining witnesses and of introducing counter-evidence if they shall deem it proper. To this letter Mr. Fessenden replied as follows:

"It is not customary to allow a cross-examination of witnesses before a Committee appointed to report on a subject not involving individuals.

"The Committee is supposed to be desirous of ascertaining the truth, and capable of making all the examnation necessary.

"The Committee is quite willing, however, to examine
any witnesses who may be produced having a knowledge of the subject mattergo any reasonable extent.

"The credentials of gentlemen claiming to be Senators have not been referred to this Committee, and
there is no probability that they will be."

Mr. Graham subsequently replied as follows:

"My sole purpose is to aid the Committee. so far as
this State (North Carolina) is concerned, in the ascertaining of truth, and to guard against ex parte testimony
from unknown or irresponsible sources.

"If, therefore, the Committee will at any time funish
notice of the points on which evidence is desired, or of
prejudicial testimony which it is necessary to meet, my
collesques and myself will gladly avail ourselves of its
permission to offer such relevant proof as may be in our
power."
